New Edits!! Selections ***All Teams***All Case Managers*** Print

Constantly track critical performance indicators such as case mix weight, census, etc.

Immediate drill-down for clinical, financial and operational patient detail.

Monitor service utilization while an episode is in progress!

Use your data to get a price check & see the impact of the 2008 PPS rule changes!

Instant calculation of Outcomes by primary case manager, or by team, or agency wide.

Study active edits in a second. Red button indicates there are edits, such as Clinical Inconsistencies and/or Diagnostic Coding issues, that need to be reviewed.

“Home Healthcare is a competitive industry, where data is power. Professional enables me to analyze our OASIS data in real time.”

Todd Rose, CFO
Visiting Nurse and Healthcare Services of
Vernon, Vernon, CT

Home Health Compare Outcomes

Home Health Compare Outcomes for the period
11/01/2006 to 02/05/2007
Current Payer=MCR
Primary/Case Manager=#WATSON, EDNA#
